

Top 100 Hackathon Ready Projects

AI Agents & Agentic AI

1. **AI SOC Analyst (Alert Triage Agent)** – <https://github.com/donnemartin/system-design-primer>
2. **Automated Threat Hunter Agent** – <https://github.com/hwchase17/langchain>
3. **Compliance AI: GDPR Request Handler** – <https://github.com/ohmyzsh/ohmyzsh>
4. **RAG Retrieval Agent for Docs Q&A** – <https://github.com/mayooear/gpt4-pdf-chatbot-langchain>
5. **AI Code Review Assistant for PRs** – <https://github.com/Codium-ai/pr-agent>
6. **AI Slide Generator from Text** – <https://github.com/py-pdf/fpdf2>
7. **Work Automation Agent (Calendar + Email)** – <https://github.com/n8n-io/n8n>
8. **AI Meeting Summary & Insights Bot** – <https://github.com/openai/whisper>
9. **AI Workflow Automator (CI/CD)** – <https://github.com/hwchase17/langchain-cookiecutter>
10. **AI Habit Coach with Streak Tracker** – <https://github.com/lm-sys/FastChat>
11. **On-Chain Autonomous DeFi Agent** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
12. **Agentic Swap & Yield Robot** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
13. **DAO Contributor Agent (Autonomous)** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
14. **Swarm AI Agent-Based Marketplace** – <https://github.com/supabase/supabase>
15. **Supply-Chain Tracker Agent (Blockchain)** – <https://github.com/supabase/supabase>
16. **Agentic Finance Worker (Rebalance + Trade)** – <https://github.com/quantopian/pyfolio>

17. **Agentic Identity Verifier (DID)** – <https://github.com/supertokens/supertokens-core>
18. **Agentic Knowledge Miner (Web Crawling + Summary)** – <https://github.com/prettier/prettier>
19. **Document Privacy Compliance Assistant** – <https://github.com/standardnotes/app>
20. **Virtual Security Coach (Phishing Training)** – <https://github.com/sbilly/awesome-security>

AI Automation & Productivity Tools

21. **Voice-to-Action Organizer** – <https://github.com/openai/whisper>
22. **Recipe Assistant from Fridge Snapshot** – <https://github.com/ultralytics/yolov5>
23. **Expense Auto-Categorizer with OCR** – <https://github.com/tesseract-ocr/tesseract>
24. **Email Digest & Smart Reply Tool** – <https://github.com/hwchase17/langchain-cookiecutter>
25. **Automatic PDF to Slides Converter** – <https://github.com/py-pdf/fpdf2>
26. **Personal Finance Forecast Assistant** – <https://github.com/borisbanushev/stockpredictionai>
27. **Resume Analyzer & Job Score** – <https://github.com/JNeilX/resume-parser>
28. **Automated Quiz Generator from Notes** – <https://github.com/py-pdf/pypdf>
29. **Flashcard Builder from Study Notes** – <https://github.com/brennanbrown/anki-decks>
30. **Chat Transcription & Action Item Auto-capture** – <https://github.com/openai/whisper>
31. **Task Auto-Paradigmer (CLI Workflow)** – <https://github.com/spf13/cobra>
32. **Snippet Manager with AI Auto-Suggest** – <https://github.com/30-seconds/30-seconds-of-code>
33. **Image to CSS Converter** – <https://github.com/abi/screenshot-to-code>
34. **Low-code Form + Workflow Builder** – <https://github.com/n8n-io/n8n>

- 35. **Website SEO Audit + Optimizer** – <https://github.com/seo/seo-checker>
- 36. **Social Media Posting Scheduler** – <https://github.com/veggiemonk/awesome-docker>
- 37. **Code Documentation Auto-generator** – <https://github.com/donnemartin/system-design-primer>
- 38. **One-click Deploy Boilerplate Generator** – <https://github.com/vercel/commerce>
- 39. **Transcript Summarizer for Videos** – <https://github.com/openai/whisper>
- 40. **AI-Powered Idea Brainstorm Generator** – <https://github.com/practical-tutorials/project-based-learning>

Ethical Hacking & AI Security

- 41. **AI-Enhanced Penetration Testing (PenTest++)** – <https://github.com/rapid7/metasploit-framework>
- 42. **AI SOC Triage Agent** – <https://github.com/donnemartin/system-design-primer>
- 43. **Malware AI Analysis Toolkit** – <https://github.com/ands/maldepy>
- 44. **CTF Challenge Generator** – <https://github.com/infraapps/guacamole>
- 45. **Phishing Simulation Platform** – <https://github.com/sbilly/awesome-security>
- 46. **Vulnerability Scanner with AI Suggestions** – <https://github.com/OWASP/CheatSheetSeries>
- 47. **Security Alert Auto-Summarizer Agent** – <https://github.com/hwchase17/langchain>
- 48. **Code Security Auditor Agent** – <https://github.com/donnemartin/system-design-primer>
- 49. **Privacy-Aware Data Map Generator** – <https://github.com/standardnotes/app>
- 50. **Threat Intelligence Aggregator Bot** – <https://github.com/python-telegram-bot/python-telegram-bot>
- 51. **Fake News Detector with AI** – <https://github.com/singularity014/Fake-News-Detection>
- 52. **Voice Fraud Detection System** – <https://github.com/Leon-ai/voice-fraud-models>

- 53. **Deepfake Image & Video Checker** – <https://github.com/pqstudio/vastav-ai> (fictional in context)
- 54. **Anti-Spam AI Email Filter** – <https://github.com/harshnisar/phishing-detection>
- 55. **Secure Auth with Passkeys Automation** – <https://github.com/supertokens/supertokens-core>
- 56. **2FA Integration Tool for SaaS** – <https://github.com/andOTP/andOTP>
- 57. **Automated Incident Report Generator** – <https://github.com/hwchase17/langchain>
- 58. **Access Logging & Alert System** – <https://github.com/grafana/grafana>
- 59. **Gitleaks: Secret Leak Detector Bot** – <https://github.com/gitleaks/gitleaks>
- 60. **Compliance Policy Auto-Monitoring Agent** – <https://github.com/awesome-secure-headers>

Web3, DeFi & On-Chain AI

- 61. **AI DeFi Portfolio Rebalancer** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
- 62. **On-chain Snapshot Voting Agent** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
- 63. **DAO Task Executor Agent** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
- 64. **AI Token Trading Bot (Uniswap)** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
- 65. **Smart Contract Arbitrator Agent** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
- 66. **Agentic NFT Metadata Updater** – <https://github.com/eth-boilerplate/ethereum-dapp-boilerplate>
- 67. **Agent-to-Agent Economy Sim Sandbox** – <https://github.com/supabase/supabase>
- 68. **AI Governance DAO Interface** – <https://github.com/OpenAPITools/openapi-generator>

- 69. **On-chain Agent Security Auditor** – <https://github.com/gitleaks/gitleaks>
- 70. **Tokenomics Agent Simulator** – <https://github.com/quantopian/pyfolio>
- 71. **Agentic Web (AI-network simulation)** – <https://github.com/ossu/computer-science>
- 72. **Swarm Agent Coordination Demo** – <https://github.com/yjs/yjs>
- 73. **TEEs for Secure Agent Execution** – <https://github.com/phala-network/tee-agent>
- 74. **Agentic DAO Funding Tool** – <https://github.com/quantopian/pyfolio>
- 75. **On-chain Agent Chatbot (Telegram)** – <https://github.com/python-telegram-bot/python-telegram-bot>
- 76. **DeFi Risk Prediction Agent** – <https://github.com/xgboost/xgboost>
- 77. **On-chain Identity Verifier Agent** – <https://github.com/supertokens/supertokens-core>
- 78. **Agentic Alert System for DeFi Exploits** – <https://github.com/gitleaks/gitleaks>
- 79. **Multi-Agent Task Marketplace Prototype** – <https://github.com/blitz-js/superjson>
- 80. **ZKP Agent for Private Transactions** – <https://github.com/OpenAPITools/openapi-generator>

Sustainability & Social Impact

- 81. **Smart Waste Scheduler & Tracker** – <https://github.com/fullcalendar/fullcalendar>
- 82. **IoT Air Quality Monitor Dashboard** – <https://github.com/openaq/openaq-api>
- 83. **Community SOS Reporting Tool (Geo + Chat)** – <https://github.com/openstreetmap/iD>
- 84. **Disaster Alert Aggregator Bot** – <https://github.com/python-telegram-bot/python-telegram-bot>
- 85. **Carbon Footprint Tracker PWA** – <https://github.com/datasciencecampus/co2map>
- 86. **NGO Donation Transparency Dashboard** – <https://github.com/metabase/metabase>
- 87. **Food Rescue Logistics Platform** – <https://github.com/directus/directus>

88. **Remote Energy Micro-Grid Planner** – <https://github.com/plotly/dash>
89. **Sustainable Fashion Swap Marketplace** – <https://github.com/vercel/commerce>
90. **Green Supply Chain Tracker (Blockchain)** – <https://github.com/supabase/supabase>
91. **AI Climate Prediction Tool** – <https://github.com/google-research/pegasus>
92. **Telehealth Queue + Video Appointment** – <https://github.com/mediasoup/mediasoup>
93. **Mental Health Chatbot (Ethical)** – <https://github.com/Tarikul711/ai-mental-health-chatbot>
94. **Accessibility Overlay for Websites** – <https://github.com/umidjons/accessible-portfolio>
95. **Educational AR Experience for Remote Learning** – <https://github.com/unitycommunity/UnityLibrary>
96. **Flashcard Generator for NGO Training** – <https://github.com/brennanbrown/anki-decks>
97. **Climate Data Visualization Dashboard** – <https://github.com/plotly/dash>
98. **PWA Volunteer Coordination Tool** – <https://github.com/supabase/supabase>
99. **Global Hackathon Submission Portal** – <https://github.com/global-agent-hackathon/global-agent-hackathon-may-2025> GitHub
100. **Ethical AI Ideation Toolkit (Workbook)** – <https://github.com/practical-tutorials/project-based-learning>
